**DETAILED ACTION**

**And**

**EXAMINER'S REASONS FOR ALLOWANCE**

1. Claims 1-21 and 23-25 are allowed.
2. As regards the 35 USC 101 rejections of the claims, the Examiner has found the Applicants argument on page 6 of the 5-27-2005 responses regarding the Non-Statutory double patenting rejections to be persuasive.

**EXAMINER'S REASONS for ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: The following limitation, in combination with other limitations are neither anticipated nor made obvious by the prior art and regarding independent claims 1 and 19, *"A method of connecting an emulated electronic device to a network operating at a specified bit-rate higher than the emulated electronic device"*. The Examiner notes the argument provided on page 17 of Applicant's Appeal Brief presented on 5-27-2005, *"Therefore, if one is to construe the Chen Article's ATM network as an emulated electronic device, as the Examiner's rejection requires, the emulated electronic device operates at a higher bit-rate than the network it emulates, which is contrary to the limitations of Claims 1 and 19,"* the Examiner has found this argument to be persuasive and withdraws the earlier 35 USC 102 rejections of the claims. As regards the 35 USC 103(a) rejections of the claims, the Examiner has found the arguments on page 8 of the Appeal Brief to be persuasive and withdraws those rejections.

3.1 Regarding dependent claims<sup>2</sup> 1-18, 20, 21 and 23-25 they are allowed as they depend from allowed base claims.

Art Unit: 2123

3.2 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Patent 5,299,314 discloses an Ethernet Interface attached to a Centronics™ parallel port, see Figure 2 item 32.
